THE BASICS

20-50g

KEEP CARBS LOW

Aim for 20-50g of net carbs per day (or as needed).

EAT REAL FOOD

Choose whole, unprocessed foods most of the time.

PROTEIN IS IMPORTANT

Helps build & maintain muscle and keeps you full.

HEALTHY FATS FUEL YOU

They keep you satisfied and support energy.

HYDRATE & REPLENISH

Drink water and get enough electrolytes.

CONSISTENCY WINS

Small daily choices lead to big results.

TIPS & TRICKS FOR SUCCESS

PLAN AHEAD

Plan meals and snacks to avoid impulsive choices.

TRACK YOUR INTAKE

Use an app to track macros and stay in range.

FOCUS ON PROTEIN & VEGGIES

Build meals around protein and low carb veggies.

DON'T FEAR FAT

Healthy fats help you feel full and energized.

WATCH PORTION SIZES

Even low carb foods add up. Portion control matters.

BE PATIENT

It can take 2-4 weeks for your body to adapt.

LISTEN TO YOUR BODY

Adjust carbs based on energy, goals and results.

WHY IT WORKS

Helps burn stored fat for energy

Supports stable blood sugar

Reduces hunger & cravings

Improves focus & mental clarity

Supports heart health markers

More energy, better mood
